

JONATHAN STORY - ELECTRICAL ENGINEERING

ACCOMPLISHMENTS

Phi Eta Sigma member 2021-22

A student earns this when they achieve a 3.75 GPA in their first two semesters of collegiate study.

Dean's List - x2 (Fall 2021 & Spring 2023)

Auburn Hackathon participant - Spring 2023, 2024

2023 - Made and deployed a website that allowed users to retrieve flight data and make cost estimates for travel.

2024 - Developed a website that showed the current position of the ISS in real time

CyberForce Program Participant - Fall 2023

Participated in a cybersecurity competition where our team defended against a red team trying to attack our virtual machines by communicating with the red team where and how they got in. Additionally solved cybersecurity puzzles where a wide field knowledge was tested.

Southeastern Collegiate Cyber Defense Competition Participant - Spring 2024

Participated in a competition where a group of 8 students attempted to defend a network of virtual machines that all had vital services. We would be scored based on how many services our network had working at one time

SKILLS & PROJECTS

- Experienced with Python, Java, and C++ programming languages
- Experience with Linux and Windows operating systems
- Ability to lead teams of programmers to make class projects
- Personal website joncorp.tech utilizing apache2 on a raspberry pi
- Soldering and using Arduino microcontrollers with electronic components

PROFESSIONAL EXPERIENCE

FIELD ASSESSOR, PORTER COUNTY ASSESORS OFFICE

June 2022 - August 2022

I was responsible for going house to house throughout my county and recording property information and communicating to homeowners that their houses were being reassessed.

EDUCATION

AUBURN UNIVERSITY—AUBURN, ALABAMA—THIRD YEAR

Current Grade Point Average: 3.33

Academic Heritage Scholarship Recipient

Major: Electrical Engineering | Minor: Computer Science

VALPARAISO HIGH SCHOOL—VALPARAISO, INDIANA—ADVANCED HONORS DIPLOMA

Grade Point Average: 4.169 Class Rank: 66/447
